Friend "Stoops," in your last talk you say in quoting various Populists leaves us under the impression that every Populist is an orator concealed within himself. After reading and studying such quotations we have concluded that all there is in Populism are magazines, rhetorical efforts that look well in print but mean nothing; at least it appears that way.

Now, in answer, would say to my friend that oratory which we claim for some of our leaders is of no mean kind, as men of the various political parties freely admit. But that is not what Populism thrives on; there are fixed and definite principles based on justice and honor that makes Populists. I wish to say a few words not only to my friend, but to the young men who are coming into manhood. It is this: to never espouse any cause, neither religious nor political, until you have stripped yourself bare of all prejudices and weighed all the evidence and cast your lot on the side of justice, honor and intelligence. That's what makes patriots. On the other hand a person espouses a cause because his father did or it is popular or he is afraid to stick to principle or on principle. That is the material that politicians are made of. Which one, boys; politician or patriot?

WHAT HE GAVE.—At a New Year's banquet in Cincinnati the other night the guests were astounded when one of the most notorious skindivots of that city arose and began to make a plea for the poor. He spoke in flowery language of the great amount of suffering that was going on and drew word pictures of ragged children, sick widows and starving men. He became so interested in his topic that his flow of language seemed to get beyond his control, and he worked up to the climax with much fervor. Having brought tears to the eyes of a number of the guests, all of whom were by that time in a charitable and peaceful frame of mind, he struck the table with his right hand and said:

"I move that we give—"

He seemed to suddenly realize what had happened and where he was. He hesitated and then continued:

"I move that we give—that we give—that we give three cheers for the poor of Cincinnati." — Courier-Journal.

is awful to contemplate the state of affairs that would ensue if the vandals had succeeded.

D. C. EDWARDS, Congressman-elect, and John D. White, ex-Congressman, are both contesting Dr. W. Godfrey Hunter's seat in the present Congress from the Eleventh Ky. district. According to the contestants the election was something terrible, and no doubt it was.

SENATOR BLACKBURN and Gov. Beckham are saying hateful things about each other through the newspapers. One would judge that it will be a finish fight between them, but whose finish it will be remains to be demonstrated when the Senatorial election comes off next year.

A SCANDAL has arisen in the Missouri legislature, now controlled by the Republicans. A member says he was offered a bribe to vote for Thomas K. Niedringhaus for U. S. Senator to succeed Cockrell. Republican ascendancy in Missouri will be short if that's the way the party uses its victory.

New York's fame as a city of many millionaires would never be suspected from an inspection of the tax lists. Andrew Carnegie gives in \$5,000,000 personally, John D. Rockefeller \$2,500,000, Russell Sage \$2,000,000, J. Pierpont Morgan \$400,000, and so on with the moneyed magnates of the nation.

JO BLACKBURN is an interview in a newspaper expressed contempt for Gov. Beckham. Beckham retaliated in an article skinning Blackburn and eating the raw, quivering flesh. Of course Blackburn will in turn take the hide off of Beckham. That's what politics does for brethren who will not dwell together in harmony.

The Ky. legislature, called in extra session to reconsider a site for the \$1,000,000 capitol, appears to favor a new location. The Hunt property of 23 acres is offered for \$15,000 and is generally favored. Some ten acres adjoining can be bought for \$30,000. The cost of the site will be far less than the cost of buildings for State purposes if the old site is built on.

EVERY worm found on cabbage wedges is classed with the "cabbage snake," and every case of sickness from eating cabbage is attributed to the "cabbage snake," whereas it is a common practice to thicken dust growing cabbage with paris green or other deadly arsenical poison to destroy insects. Contrary to popular belief such poisons never lose their strength and are surely dangerous in small doses.

Died, at Sharpsburg, the six-months-old baby of Dick Lyons and wife, formerly of this place. They brought it back here and laid it to rest in the Old Virginia graveyard. It was their only child. The young parents have the sympathy of the community.

Another little lamb has gone To dwell with Him who gave; Another little darling babe Has a shelter in the grave.

God needed one more angel child Amid his shining band, And so he bent with loving smile And clasped our darling's hand.
